### SUPERVISOR COMMENTS

Officers responded to several hazards due to items being blown around by the wind. During the day an officer arrested a subject for battery on an officer and resisting arrest. In the beginning of the week officers investigated a violation of an elder abuse restraining order in which the suspect (whom we arrested today) had fled prior to our arrival. At that time, it was discovered that the suspect had 1 of the issued restraining orders that still needed to be served. Today an officer spotted the subject and attempted to contact him to serve him with a copy of the restraining order. The suspect was very hostile and refused to stop. When officers finally contacted him, he proceeded to spit on the officers. He was arrested for battery on a police officer and resisting arrest. He was also served with the restraining order, and taken to jail.

SUPERVISOR COMMENTS

Officers responded to an apartment complex for the report of a domestic battery that just occurred. An ex-boyfriend arrived at the RP's home and took money from her purse before pushing the victim. The male was gone before police arrived. It was determined the male had grabbed the victim's face and shoved her, resulting in a visible injury under her eye. The male was not located and will be wanted for felony domestic battery. An officer made a traffic stop and the driver had a infraction warrant. He was arrested and cited for that. While speaking with one of the passengers in the vehicle an officer saw a small bag of methamphetamine on the floorboard next to the passenger. The passenger was arrested for possession of Meth after it was determined he had two prior convictions for possession of controlled substances. He was booked into jail.
