REQUEST FOR INFORMATION

BID NO. 22-019

FOR

DESIGN-BUILD ENERGY SERVICES

INFORMATIONAL ADDENDUM NO. 2

DATED ISSUED: AUGUST 22, 2022

- 1. City requires ESCO to be pre-approved on the California Department of General Services ESCO list. This list only applies to state agencies and design build projects at state owned facilities. Is it possible to get a waiver for this item if we meet all the other minimum requirements, as Turlock is not a state agency?**

The fact that Turlock is not a State agency does not preclude us from requiring that SOQ providers be on the list of State-approved service providers. That said, we will not be providing any waivers for this requirement.

- 2. From my understanding, this is an RFQ for design build services. On page 6 it says client references can also be for sustainability/climate action plans, decarbonization and/or electrification, smart cities, and financing/funding strategies. Will preferential scoring be given to design build only references?**

The RFQ is for design/build services, but preferential scoring can be given for references for whom any of the listed services have been performed.
