

PERSON-CENTERED CARE

Would support caring for your loved one be helpful?

Let your community be there for you!

With grant funding from Legacy Health Endowment (LHE), Community Health Centers of America (CHCA) and LHE have collaborated to launch the Person-Centered Care (PCC) program in Southern Stanislaus and Northern Merced counties. The PCC is a free service created to offer you specific support in caring for your elderly or ill family. The program is designed to be that extra set of hands you need to make things simpler, easier, and ensuring you can focus your time on providing the essential, most personal care.
